

HELP STOP THE SPREAD OF COLD AND FLU VIRUSES IN YOUR CLASSROOM

SNEEZESAFE® LEARNING POSTER COMPETITION

For a chance to
**WIN ONE OF
15 Fitbit Charge 2™ and
ONE OF 3 Acer Chromebooks.**

Dear Parents and Guardians,

Many absences are brought about by germs and viruses when children are in close contact with one another, for example in the classroom. The winter period of colds, coughs and sneezes is just around the corner, so this year your child's class will be participating in a general wellbeing program that promotes behaviours which assist in the prevention of colds and influenza viruses. Good hygiene and tissue use can help protect children from germs, sickness and missing valuable school time. It could also help avoid the spread of colds and influenza to other members of the family.

The SNEEZESAFE® program is designed for children aged four to twelve. Devised by KLEENEX® Brand Tissues and Australian teachers in 2011, the program encourages children to practise correct respiratory hygiene and tissue use to help reduce the spread of colds, flu and other viruses. All materials are supplied free to teachers and include a number of engaging educational stories and games, featuring Suki Sneeze and Nathan Noseblow.

It has been developed for Australian classrooms. It builds on the Australian Curriculum health and physical education standards for teaching children how to take increasing responsibility for their own health and physical wellbeing.

You too can help your child stay healthy and prevent the spread of germs by reminding them at home of this simple 1-2-3 message.

- CATCH IT** Always use a tissue when you cough and sneeze
- BIN IT** Throw the tissue in the bin as soon as possible
- WASH IT** Wash your hands

You can help reinforce their learning at school by visiting sneezesafe.com.au, click on "Kids Zone" in the menu bar, read the stories and play the games together. You could also support your child's learning by providing them with a pocket pack of tissues for their school bag, for when the need arises. There is also a useful information page for parents.

As an additional home reminder to help keep your home and child's class sneeze safe this winter,

THERE IS A SNEEZESAFE® LEARNING POSTER COMPETITION ON THE BACK OF THIS LETTER and children can win[^]. Parental consent is required. Total prize pool is valued up to \$12,376 RRP.

Your child could win a Fitbit Charge 2™ and an ACER 11.5" Chromebook computer. Your child's school could also win a years supply of KLEENEX® Brand tissues. For entry details, go to sneezesafe.com.au.
